

ST-B3E

EMERGENCY BREAK GLASS

DESCRIPTION

The **Stoneuk ST-B3E** is a double pole double throw emergency push button switch designed for access control and fire safety systems. Made from fireproof materials with a sandblast finish, it ensures durability and reliability in critical situations. Operating at DC12V and supporting up to 36V DC / 3A, it features NO/NC/COM output contacts and is available in multiple color options. Ideal for emergency door release applications in gates, exits, and automation control systems.

FEATURES

- ◆ **MAX. VOLTAGE: 36V DC**
- ◆ **WATERPROOF: IP55**
- ◆ **MATERIAL: FIREPROOF MATERIAL, SANDBLAST FINISHED**
- ◆ **NORMALLY OPEN/NORMALLY CLOSE/Common RELAY OUTPUT**

SPECIFICATION

- ◆ **Operating Temperature - -10°C ~ 55°C**
- ◆ **Dimensions - 86*86*50mm**
- ◆ **Input voltage: DC 12V**
