

ST-K6B

STAINLESS STEEL EXIT BUTTON

DESCRIPTION

The **Stoneuk ST-K6B** is a robust and reliable mechanical exit button, ideal for access control applications in commercial and industrial settings. Made with a stainless steel panel and a durable steel button, it ensures long-lasting performance even in high-traffic areas. With a clean, professional design and high mechanical endurance, this exit button is suitable for use on doors requiring secure and easy exit functionality. Perfect for offices, buildings, and controlled access zones.
