KEY FEATURES

1. All-in-one design, allows you to open the door in multiple ways, you can enjoy the option of access either via RF semiconductor fingerprint, IC card, password or TUYA Bluetooth APP.
2. Self-developed patented fully automatic electronic mortise, recognizes door unlocking in seconds and locks the door automatically. Enables a smooth and fast locking and unlocking experience, fully automated with low noise.
3. With separate control systems on the front and rear panels, and is equipped with related accessories to prevent electromagnetic interference.
4. Ultra-thin aluminum alloy body, coupled with OLED glass sensing panel, is stylish, durable and high-end.
5. RF semiconductor fingerprint can achieve significantly higher recognition accuracy, AI learning function, the more you use it, the more flexible it is.
6. The fingerprint recognition hidden on the back of the handle is more durable and safer, and it opens with one touch, which is smoother and faster.

Product Parameters

Appearance:

Aluminum alloy
Color: black

Unlocking method:

Fingerprint
Password
IC card
Mechanical keys
TUYA Bluetooth

Hardware parameters:

8 AA batteries
Emergency power supply Type C
Number of users: 99 sets of fingerprint cards
(01ID administrator)

Structural function:
grade C Lock cylinder
Electronic anti-lock

Lock body(Mortise):
Full-auto T6068

Other functions:

- English voice prompt
- Multiple error alarms
- Low battery alarm
- Anti-theft alarm
- Virtual password
- Silent mode
- Doorbell
