STONEUK - ST-103

The Stoneuk ST-103 is a high-performance standalone access controller designed for single-door applications. It supports multiple access modes, including card, PIN, fingerprint, or a combination of these methods, offering enhanced security and flexibility. With built-in Wi-Fi connectivity, the device can be easily configured and monitored through a dedicated mobile application, allowing remote access control and real-time management from anywhere. Ideal for both residential and commercial use, the ST-103 combines convenience, reliability, and advanced biometric authentication in one compact solution.

KEY FEATURES

- Multiple Access Methods
- Designed for Single Door Applications
- Built-in Wi-Fi Connectivity
- Remote Access
- Useful for both Residential and Commercial Use
- Waterproof
