

STONEUK - ST-5005LZ

The Stoneuk ST-5005LZ is a robust LZ bracket made from high-strength aluminum, specially engineered for 500 kg electromagnetic locks installed on inward-opening wood or metal doors. Designed for stability and long-lasting performance, this bracket set provides a secure and precise mounting solution for both the magnet and armature plate. Its versatile design ensures compatibility with various door types, making it an excellent fit for advanced access control installations.
