

STONEUK - ST-SL250S

The Stoneuk ST-SL250S is an electric strike lock designed for versatile access control with adjustable modes for fail-locked and fail-unlocked configurations. It operates using magnetic force generated by an electromagnetic field and includes built-in short circuit protection for enhanced safety. With two working modes—Power-to-Open and Power-to-Lock—it adapts easily to different security requirements. Constructed from high-quality aluminum, it offers excellent hardness, corrosion resistance, and anti-deformation durability.

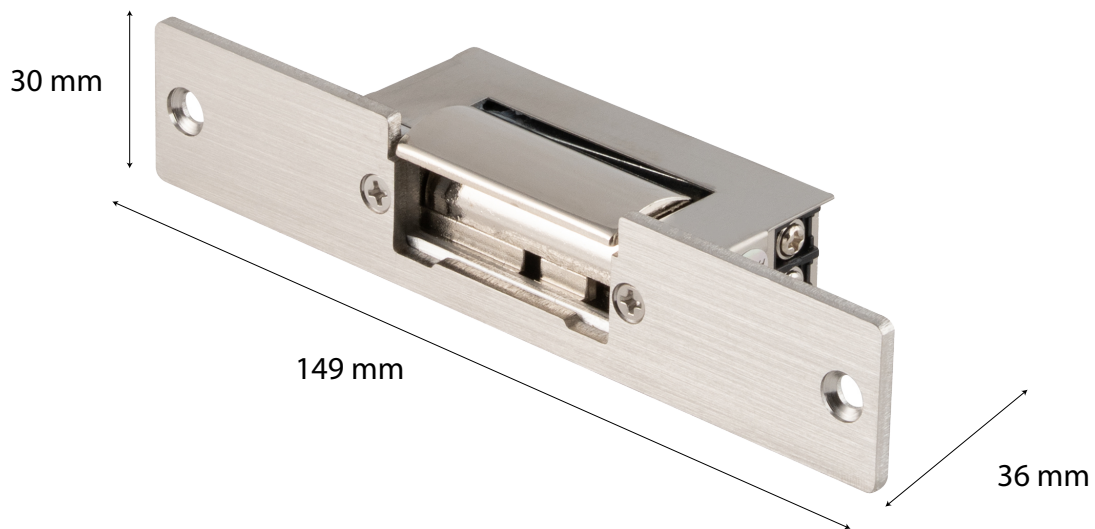

KEY FEATURES

- An Electric Strike Lock Designed for Access Control Systems
- Adjustable Modes for Fail-Locked and Fail-Unlocked Configurations
- Operating Through Magnetic Force Generated by an Internal Electromagnetic Field
- Built-In Short Circuit Protection
- Two Working Modes—Power-To-Open And Power-To-Lock
- Offers Excellent Hardness, Corrosion Resistance, and Anti-Deformation Durability

PRODUCT PARAMETERS

Power Supply	12 V DC
Modes	Power-To-Open / Power-To-Lock
Material	High-Quality Aluminum Body, Stainless Steel Strike
Holding Force	Up To 500 Kg
Fail Modes	Fail Secure (No), Fail Safe (Nc)
Current	200mA (NO/NC)
Operating Temperature	-10° C to 55° C
Compatible Doors	Wooden, Metal, Pvc
Dimension	149 X 30 X 36 mm
