

STONEUK - ST-USB-EM/MF

The Stoneuk ST-USB-EM/MF is a 125kHz USB desktop RFID card reader designed for quick and efficient card enrollment in access control systems. Simply connect it to a computer via USB and present an ID card—no manual input required. Ideal for issuing cards, this plug-and-play device automatically reads and inputs the card number into your software. It supports EM 125 kHz cards by default, with an optional version for MF13.56 1 MHz cards, making it a convenient and reliable tool for desktop-based card registration.
